## 4. Agriculture Pest Control

**SMART CATCH**® aphid glue trap is applied in garden , orchard , plantation to protect fruit and plant. With strongly adhesive, odourless, ready to use, safe and sanitary, it is an ideal fly and aphid terminator. As a new generation of environmental product, this product is made with high-molecular chemical compound. This product is designed for small greenhouse insects such as leaf miners, white flies and aphids. By biological and environmental high tech utilization, the glue board can attract the pests and stick them on the glue surface.

It pastes macromolecule adhesive glue on the both sides of film with equal paste, non-flow, non-dryness and strong viscosity to arrest fly and mosquito. It can be put in miniascape or potted plant. It has no effect to environment with characteristics of innocuity, safety, sanitation and easy operation. It is no baiting, non-toxic, harmless, non-polluting.

50x34x21.5cm	6kg	760CTNS

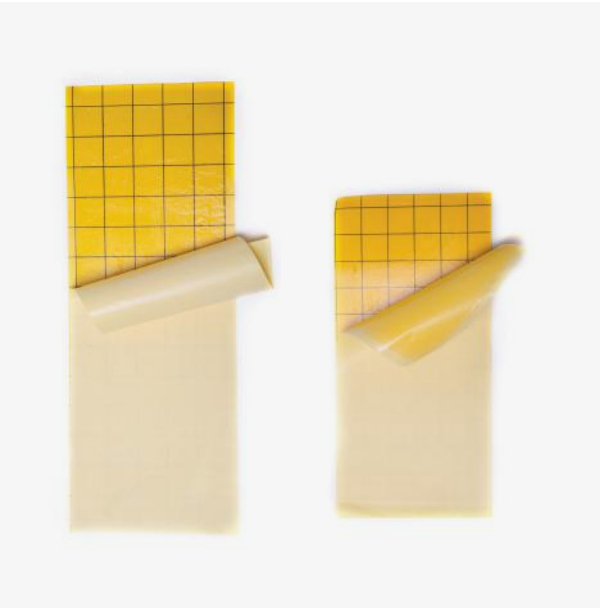

5. UV Light Glue Traps

## Ultraviolet light kit glue traps

Item No.	Size	Material
HPC-101	Various size ( customized available )	Cardboard, PVC, PP.

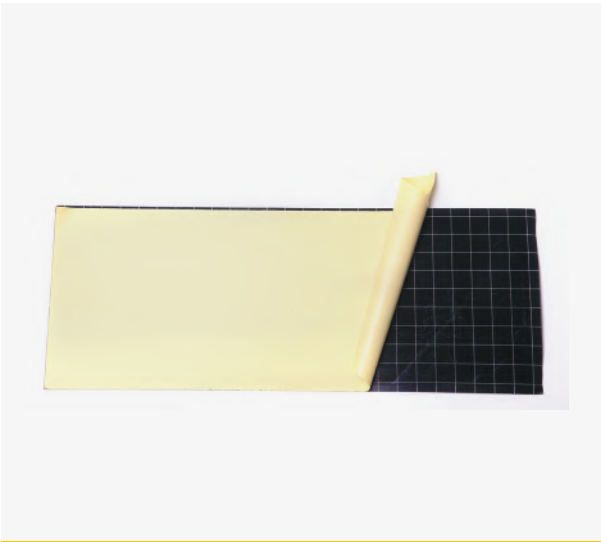

Item No.: HPC-101

Item No.: HPC-104

Item No.: HPC-102

Item No.: HPC-103

UV resistant Smart Catch glueboard.  
We can produce various size traps according to UV lamp manufacturer request.

## Quality Controls

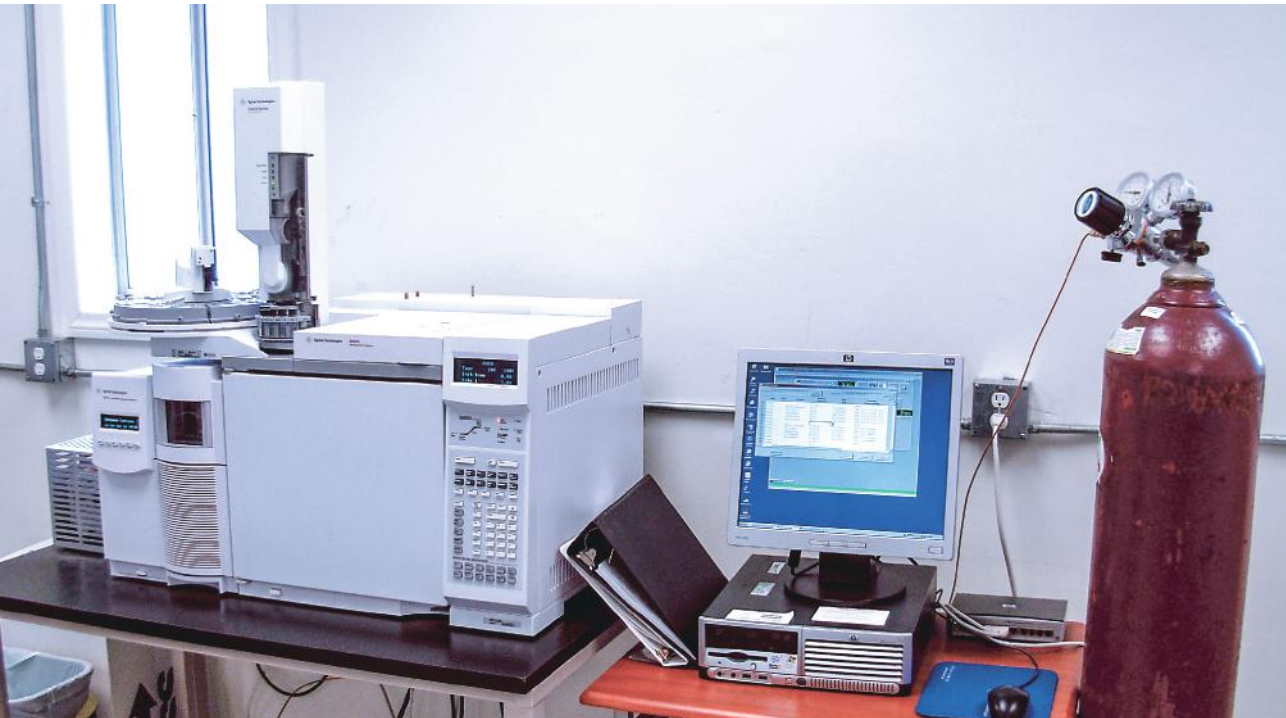

We have our research and development team to improve our technology continuously. We use advanced inspection equipments to test the content of high molecular material, addition agent and impurity. Guarantee always best quality offered to our clients.

HPLC to analysis content of high molecular material, addition agent.

KFT to anlysis the content of moisture.

GC-MS to analysis and determine the contest of impurity
